

Welcome to the Upper Peninsula Steam & Gas Engine Association, a group of enthusiasts who share a passion for preserving and showcasing the heritage of steam and gas-powered machinery. In this book, you will learn about the history of the association, its members and its activities, as well as the fascinating machines that they collect, restore, and operate.

This is the story of the U.P. Steam and Gas Engine Association, as told by the men and women who really did create something wonderful through their willpower and their dreams. Over 300 pages. Hundreds of photographs.

\$35

Per Book
